

Innovation in Mission summer internship 2026

The vision

In Agapé UK, our dream is to see people experience the incredible impact of discovering Jesus for themselves. Our ministry has prided itself in being at the creative, cutting-edge of missions for decades, meeting people where they are at, and introducing them to Jesus.

A couple of years ago, we felt a push from God to bring in new ideas and new solutions to the missional problems of today. As a result, we launched the pilot summer internship in 2025. The goal - give a group of 18-25s a real, **live problem** faced by someone in frontline mission, provide them with **industry-standard training** in innovation/problem-solving, and then let them loose to **create solutions** of their own to present to their client at the end of a month.

After a hugely successful pilot year, we are opening the doors wide for the 2026 internship program. We are looking for 10-15 interns with a wide variety of gifts. Whether you're an engineer or an artist, a computer scientist or a social scientist, we need you to bring your gifts to bear on real missional problems of today.

The details
