DESCRIPTION OF PLACEMENT ORGANISATION AND PROPOSED ROLE:

Siam Care is a ministry of World Outreach. Siam Care has been around for 30 years and predominantly reaches out to underprivileged families offering programs that help people with basic needs and move them forward towards independency and community.

There are various activities and ways to serve and mainly done in as a team at the main office in North East Thailand. This is one of the driest and poorest provinces in Thailand located in the Mekong-delta and bordering Laos. There are possibilities to serve in the following ways:

- visiting vulnerable people at home for encouragement and counselling
- helping the local church in their children's projects
- teaching English at local schools
- carrying out practical tasks at the main office location such as painting and gardening, but also helping repair and even build houses for families in the Siam Care program.
- Bless the local churches by leading worship, sharing testimony or preaching.
- Joining churches as they organise outreaches.

A placement can be anything from a week to 1 month. There is accommodation at the main office complex with a fee of £7.50 a day and visitors would cover their own food expenses.

Although the date states May, this opportunity will fit in with LST's requirements for student placements.

For more information contact Jon Hitchen at the World Outreach UK office.
