The more we know about your organisation and its needs, the more equipped we will be to make an appropriate student match for placement. Our students come from a variety of church backgrounds and have different levels of experience but we always do our best to find the right fit. If you have multiple placement opportunities (ie. youth and worship) please outline the positions separately.

Please note, we cannot guarantee a placement student will be allocated to your organisation. If a student is allocated we will contact you with the details of placement.

### DESCRIPTION OF CHURCH/ORGANISATION'S MISSION AND POSSIBLE PLACEMENT ROLE:

acet UK exists to help Christians champion healthy relationships and sexual wellbeing. The majority of our UK work is focused on equipping people with training and resources to provide relationships and sex education with young people. School's are our primary target group as they provide brilliant opportunities to meet the needs of young people from all across the community. We also work with smaller groups outside mainstream settings such as pupil referral units, youth groups, churches and adolescent mental ill health inpatient units. As a charity we provide both direct work with young people and we train others to do the same. We have a network of over 200 educators working across the UK (and beyond). Members include everyone from lone workers, church youth workers and large missional organisations such as the Message Trust.

acet UK also has an international support arm where we partner with local Christian groups in various countries in Africa, Asia and Europe to respond to the HIV situation and sexual health needs in general.

Placement roles with acet UK could include either UK frontline RSE work in schools and beyond or more background support work helping with the production of RSE materials, (graphics, videos, research, articles etc) for the UK and/or international work.

**LOCATION AND TRANSPORT OPTIONS:**

We have two offices of operation one base in London Southwark and a second in Chester. Placement requirements at the London base may require using public transport. The Chester base may require the use of a car to access less urban environments.

During COVID-19 we have adopted a wide ranging work from home policy that means transport may not be needed for any work with us. However, you will need a good internet connection for live video events. This policy will develop and change as we move through the different stages of the pandemic, so please check with us about current expectations.
